

Curriculum Vitae
Michael J. Frank

University Address:
Brown University
190 Thayer St Box 1821
Providence RI 02912-1821
Michael_Frank@brown.edu
<http://ski.clps.brown.edu>

Home Address:
114 Morris Ave
Providence, RI 02906
401.743.5573

Employment:

July 2016 – Professor, Cognitive, Linguistic & Psychological Sciences,
Dept of Psychiatry, Brown Institute for Brain Science, *Brown University*
July 2011 – June 2016 Associate Professor, Dept of Cognitive, Linguistic & Psychological Sciences,
Dept of Psychiatry, Brown Institute for Brain Science, *Brown University*
Jan 2009 – June 2011 Assistant Professor, Dept of Cognitive, Linguistic & Psychological Sciences,
Dept of Psychiatry, Brown Institute for Brain Science, *Brown University*
Jan 2006 – Dec 2008 Assistant Professor, Dept of Psychology, Program in Neuroscience, Cognitive
Science Program, *University of Arizona*

Degrees:

Ph.D., Neuroscience & Psychology (joint), University of Colorado at Boulder, 2004
Thesis: "Dynamic Dopamine Modulation of Striato-Cortical Circuits in Cognition."
Randall C. O'Reilly advisor.
M.S., Electrical Engineering (biomedicine), University of Colorado at Boulder, 2000
B.Sc., Electrical Engineering, Queen's University, Canada, 1997

Additional Education:

Postdoctoral Fellow, Department of Psychology & Center for Neuroscience, University of Colorado, 2005
John Merck Fund Summer Institute on Biology of Developmental Disabilities, Princeton University, 2004
Pure and Applied Science, Marianopolis College, Montreal, Canada, 1996

Research Interests:

Computational modeling of neural mechanisms underlying reinforcement learning, decision making, working memory and inhibitory control. I develop neural network and mathematical models of interactions between basal ganglia, frontal cortex, and hippocampus, and modulation of these brain areas by dopamine and other neuromodulators. I test theoretical predictions of the models using various neuropsychological, electrophysiological, pharmacological, neuroimaging and genetic techniques.

Awards and Honors:

- Kavli Science Fellow, 2016
- Radboud Excellence Professorship, 2015, for "eminent researchers who have had a significant impact in their discipline and beyond" Radboud University Nijmegen, The Netherlands
- Fellow, Association for Psychological Science, 2012
- Cognitive Neuroscience Society Young Investigator Award, 2011
- Janet T Spence Award for Transformative Early Career Contributions, APS, 2010
- Neural Networks journal award for most cited article between 2006-2010
- D.G. Marquis Behavioral Neuroscience Award, best paper in Behavioral Neuroscience, 2006
- Dozier Award for outstanding scholarly record, University of Colorado, 2004
- University of Colorado Graduate Fellowship
- Natural Sciences & Engineering Research Council graduate scholarship (Canada)
- Dean's Award, Queen's University, 1996
- Dean's Scholar, Queen's University, 1994/95/96/97

Grants:**Current**

Clinical and computational studies of dopamine function in Schizophrenia, NIMH R01 MH080066-01, 06/07/13 – 05/31/18, co-investigator with Jim Gold (PI, Maryland Psychiatric Research Center), \$531,724 direct costs (Brown subcontract)

How Prefrontal Cortex Augments Reinforcement Learning

2/1/2015- 1/31/18

NSF Proposal # 1460604

Role:PI \$372,056 direct costs

Goal Directed Behavior and Uncertainty in Obsessive Compulsive Disorder

7/1/2016 – 6/30/2017

Brown Institute for Brain Science Norman Prince Neuroscience Institute, New Frontiers Award

Role: co-PI, \$39,741 direct costs

The Cost of Cognitive Doping: From dopamine to cognitive control via dynamic neural coding

9/1/16 – 8/31/17

NWO / Radboud University Cools (PI)

\$61,924 direct costs current year

Role: co-investigator

Brain and Behavior Mechanisms of Irritability and Cognitive Flexibility in Children

1/12-17 – 11/30/21

NIMH R01MH111542

\$133,716 direct costs

Role: co-investigator, Daniel Dickstein (PI)

Completed

Integrated Computational Psychiatry: Behavioral, Neurophysiological and Optogenetic Testing of Antipsychotic-Driven Aberrant Learning in the Cortico-Striatal D2 Pathway

Brown Institute for Brain Science Innovation Award

7/1/14-6/30/15 Co-PI, \$100,000

Electropysiological and computational studies on action monitoring.

National Science Foundation

9/1/11 – 8/31/15 Frank (PI), \$424,695 direct costs

The influence of stimulant therapy and co-morbidity on decisions in ADHD

Norwegian Research Council

01/07/12 – 06/30/14, Tor Endestad (PI)

BL-OG: A Novel Minimally-Invasive and Homeostatic Method for Selective Regulation of Neural Dynamics in the Subthalamic Nucleus

Michael J Fox Foundation

9/1/13-8/31/14 Co-PI \$75,000

Clinical and computational studies of dopamine function in Schizophrenia, NIMH R01 MH080066-01, 01/01/08 – 12/31/12, co-investigator with Jim Gold (PI), \$409,521 direct costs (subcontract)

Orbitofrontal and striatal mechanisms in stress and addiction, NIDA R21 DA022630, 9/1/06-12/31/10, co-PI with Lesley Fellows (PI), \$210,000 direct costs (subcontract)

Neurocognitive Computations in Parkinson's Disease
Michael J Fox Foundation for Parkinson's Research
1/1/09 – 12/31/11 Frank (PI), \$366,848 direct costs

Colloquia (Invited)

Neuroeconomics Colloquium, New York University, New York NY 4/25/17
Cognitive Science colloquium, Princeton University, Princeton NJ 3/30/17
Bridge Webinar series: McGill U, Johns Hopkins U, Pittsburgh Supercomputing Center, 1/17/17
University of California at San Francisco Neuroscience seminar series, San Francisco CA 3/31/16
Johns Hopkins University Biomedical Engineering seminar series, Baltimore MD 3/28/16
IBM TJ Watson Research Center, Computational Biology seminar, Yorktown NY 1/12/16
Université de Montréal, Neuroscience series, Montreal Quebec Canada, 1/8/16
American University, Special Lectures on Cognitive Neurosciences, Washington DC, 11/13/15
University of Maryland Neuroscience and Cognitive Science series, 10/23/15
Harvard University, Department of Psychology colloquium, Cambridge MA, 10/7/15
University of Western Ontario, Neuroscience speaker series, London ON 9/29/15
Yale University, Behavior, Genetics & Neuroscience seminar series, New Haven CT 9/17/15
Donders Institute for Brain, Cognition and Behaviour, Nijmegen, the Netherlands, 6/18/15
Google DeepMind, London UK, 5/28/15
UCL Wellcome Trust Center for Neuroimaging "Brain Meeting", London UK, 4/17/15
University of British Columbia, Brain Research Centre, Vancouver, Canada, 1/9/15
University of Pennsylvania Psychology Dept, Philadelphia PA, 10/27/14
Washington University in St. Louis: Cognitive, Computational, and Systems Neuroscience

Invited Lecturer, St Louis, MO 10/6/14
Carnegie Mellon University, Dept of Psychology Colloquium, Pittsburgh, PA 9/22/14
Carnegie Mellon University, Cognitive Brown Bag, Pittsburgh, PA 9/22/14
Columbia University Dept of Pharmacology, New York NY 5/20/14
UCL, Affective Brain Lab Online Talk Series, London UK, 5/15/14
Duke University, Duke Institute for Brain Science, Durham NC, 1/31/14
Harvard University, Maclean Hospital, Boston, MA, 12/17/13
University of Amsterdam, special seminar, Amsterdam, the Netherlands, 6/14/13
University of Amsterdam, Brain and Cognition series, Amsterdam, the Netherlands, 6/6/13
Harvard University, Decision-Making workshop series, Cambridge MA, 11/16/11
New York University, Neuroeconomics seminar series, New York NY 9/27/11
National Institute of Neurological Disorders and Stroke (NINDS), Bethesda MD, 8/16/11
University of Amsterdam, Cognitive Science Center Amsterdam, The Netherlands, 6/16/11
Columbia University, Center for Theoretical Neuroscience, New York NY 5/27/11
University of California at Davis, Perspectives in Neuroscience series, Davis CA 5/12/11
University of Massachusetts at Amherst, Dept of Psychology, Amherst MA 4/6/11

Colorado State University behavioral & cognitive neuroscience brown bag, 9/24/04

Symposia and Workshops, Invited Talks

“Chunking as an optimized strategy for lossy data compression in visual working memory”,
Reinforcement Learning and Decision Making Multidisciplinary Conference, Ann Arbor MI
6/13/17

“Deconstructing neural mechanisms of impulsive choice”, Japanese-American Kavli Frontier of
Science Symposium, National Academy of Sciences, Irvine CA, 12/2/16

“Gating Mechanisms for Cognitive Control”, chaired symposium at Control Processes workshop,
San Diego, CA 11/10/16

“Opponency mechanisms of striatal dopamine on learning and choice”, Gatsby Computational
Neuroscience Institute, workshop on dopamine. London UK, 9/30/16

“Cognitive control over learning and action in frontostriatal circuits”, The Brain Conferences,
New Insights into Psychiatric Disorders through Computational, Biological and Developmental
Approaches. Copenhagen, Denmark, 9/25/16

“Adaptive regulation of decision thresholds by basal ganglia”, Workshop on Sequential
Sampling Models of Decision Making, Emmetten Switzerland, 5/10/16

“Frontostriatal interactions at the interface between choice and learning”, The Neuroscience of
Decision Making, 38th Symposium International du GRSNC, Université de Montréal, 5/3/16

“Computational Psychiatry”, chair invited symposium, Cognitive Neuroscience Society Annual
Meeting, New York NY, 4/3/16

“Basal ganglia dynamics during active learning and choice”, Gordon Research Conference on
Basal Ganglia, Ventura CA, 03/02/16

“Frontostriatal gating mechanisms in motivated action and cognition”, Workshop on
Multiregional Models of Population Coding, Simons Collaboration on the Global Brain, New
York NY, 1/19/16

“Probing for informativeness on latent states in value-based decision making”, Computational
Psychiatry Course, Zurich, Switzerland, 12/12/15

“The drift diffusion model as a tool for Computational Psychiatry and Neurology”,
Computational Psychiatry Course, Zurich, Switzerland, 12/10/15

“Probing for informativeness on latent states in value-based decision making”, International
symposium on Prediction and Decision Making, Tokyo Japan, 11/1/15

“Linking levels of analysis in computational models of corticostriatal function”, Methods in
Computational Neuroscience summer school, Marine Biology Lab, Woodshole MA, 8/19/15

“Interactive effects of striatal dopamine on reinforcement learning and choice incentive”, Gordon Research Conference on Catecholamines, Sunday River Maine, 8/10/15

Strungmann Forum on Computational Psychiatry, Frankfurt Germany, 6/28/15-7/3/15

“Dopamine, reward prediction error and action selection: Is there a connection?” workshop on Computational Properties of Prefrontal Cortex, Bethesda, MD, 5/15/15

“Probing for information about latent states during reinforcement learning”, Neurocuriosity workshop, INRIA, Bordeaux, France, 11/7/14

“Generalization and transfer during latent structure learning”, Computational Properties of Prefrontal Cortex Workshop, Whistler, BC, Canada, 10/4/14

“Frontal control over striatal learning and choice”, workshop on basal ganglia structure and function, Organization for Computational Neurosciences, Quebec City, Canada, 7/31/14

“Generalization and transfer in structure learning”, workshop on Engineering and Reverse Engineering Reinforcement Learning, Massachusetts Institute of Technology, 7/18/14

“Cognitive control over learning and action in frontostriatal circuits”, Dresden Spring School on Cognitive-Affective Neuroscience, Technical University of Dresden, Dresden Germany, 3/14/14

“Model-based cognitive neuroscience approaches to computational psychiatry: clustering and classification”, Computational and Systems Neuroscience (CoSyne) meeting, Snowbird UT, 3/4/14

“Interactive dynamics of corticostriatal circuits in reinforcement and motor learning”, Sackler Winter Conference on Developmental Psychobiology, Cozumel Mexico, 1/7/14

“EEG and fMRI correlates of dynamic decision parameters during reinforcement learning”, Society for Neuroscience Annual Meeting, San Diego CA, 11/9/13

“Computational models of aberrant learning and decision making in disease states”, Computational Psychiatry conference, Miami ,FL, 10/22/13

“Control over learning and action in corticostriatal circuits”, Sackler Summer Institute for Developmental Psychobiology, New York, NY, 7/24/13

“Linking levels of analysis in computational models of corticostriatal function”, The Third International Symposium on "The Biology of Decision Making", Paris France 5/29/13

“Computational models of dopamine in learning and choice incentive”, Dopamine 2013, Alghero Italy, 5/24/13

“Opponent processes for learning and action in frontostriatal circuits”, Meeting on dissection of direct and indirect pathways in Huntington’s Disease, CHDI Foundation, Princeton NJ, 5/9/13

“Cognitive control over learning and action in corticostriatal circuits”, Mechanisms of Motivation, Cognition and Aging Interactions, Washington DC, 5/3/13

“Linking levels of analysis in neurocomputational models of reinforcement learning”, Swartz symposium on Neural Circuits for Decision Making and Reinforcement Learning, Yale University, New Haven CT, 4/12/13

“Prefrontal and striatal contributions to reinforcement learning”, 3rd International Conference on Applications of Neuroimaging to Alcoholism, Yale University, New Haven CT, 2/18/13

“Linking levels of analysis in computational models of corticostriatal function”, Mathematical Biosciences Institute, workshop on Cognitive Neuroscience, Columbus OH, 12/11/12

“Neurogenetic modulators of reinforcement and motor learning parameters”, Plenary Lecture, Translational Computational Motor Control meeting, New Orleans LA, 10/12/12

“Neurogenocomputomics”, Special Symposium on Neural Foundations of Reinforcement Learning, Society for Neuroeconomics annual meeting, Key Biscayne Florida, 9/29/12

“Interactive dynamics in corticostriatal circuits: Linking levels of computation and implications for psychiatry”, keynote lecture, MPS-UCL Symposium and Advanced Course on Computational Psychiatry and Ageing Research, Ringberg Castle, Bavaria, Germany 9/21/12

"Striatal contributions to learning and choice in rodents, humans and computational models", in workshop on the Striatum, Gatsby Computational Neuroscience Unit and Sainsbury Wellcome Centre for Neural Circuits and Behaviour, London England, 5/24/12

"Modeling decision-making deficits in fronto-striatal disorders", symposium on Computational Psychiatry, Neuroinformatics world congress, Boston MA, 9/4/11

"Frontal control over basal ganglia in reinforcement learning and decision-making", Summer Institute on Cognitive Neuroscience, Santa Barbara CA, 6/29/11

"Mechanisms of motivated action selection and inhibition in frontal cortex and basal ganglia". Cognitive Science Center Amsterdam, Summer Institute on Cross-Disciplinary Approaches to Impulsivity and the Inhibition of Thought and Action, Amsterdam, 6/20/11

"Interactions Between Frontal Cortex and Basal Ganglia in Volitional Control", young investigator award lecture, Cognitive Neuroscience Society annual meeting, San Francisco CA, 4/4/2011

"Frontal-subthalamic regulation of decision threshold", workshop on Neural Circuits of Decision-Making (P. Dayan, A. Karpova and J Dudman, chairs), Janelia Farm Research Campus, Ashburn VA, 3/8/11

"The Role of Dopamine in Learning and Decision Making", invited address, 'Neuroscience for Social Scientists' workshop on the Foundations of Neuroeconomics, Society for Neuroeconomics annual meeting, Evanston IL, 10/15/10

"Frontal-Subthalamic Regulation of Decision Threshold in Parkinson's Disease", Swartz Symposium on Computational Psychiatry, Yale University, 9/23/10

"Frontal-Subthalamic Regulation of Decision Processes in Parkinson's Disease", Gordon Research Conference on the Neurobiology of Cognition, Waterville Valley NH 8/5/10

"Neurogenetic and pharmacology of learning and executive control over learning", Symposium on dopamine and human decision making (R. Coombs and M. Ullsperger, chairs), Federation of European Neurosciences annual meeting, Amsterdam, the Netherlands, 7/7/10

"Hierarchical reinforcement learning in corticostriatal circuits", Motivation and Cognitive Control workshop, Oxford, UK, 6/4/10

"Pharmacological and genetic modulation of decision making in corticostriatal circuits", plenary symposium, Society for Biological Psychiatry, New Orleans, LA, 5/21/10

"Neurogenetic influences on learning and executive control over learning", symposium on dopamine and adaptive memory (D. Shohamy chair), Cognitive Neuroscience Society annual meeting, Montreal Canada, 4/20/10

"Corticostriatal interactions in reinforcement-based decision making: Multiple levels of modeling", UK Neuroinformatics Node Congress, Edinburgh, UK, 2/2/10

"Neurogenetic influences on learning from experience and executive control over learning", Genetic and Experiential Influences on Executive Function meeting, Boulder CO, 1/16/10

"Dopamine, reward processing, and decision making in aging", Aging, Motivation and Addiction meeting sponsored by NIDA and NIA, Washington DC, 10/5/09

"Hierarchical cognitive control in prefrontal-basal ganglia circuits", symposium on computational modeling (K Norman chair), Memory Disorders Research Society, Chapel Hill NC, 9/25/09

"Neurocomputational models of reinforcement learning: Implications for Parkinson's disease, pharmacology and genetic". Gordon Research Conference on Catecholamines, Biddeford ME 8/12/09

"Neurocomputational models of learning and decision making: Multiple levels of analysis". *keynote address*, Mathematical Psychology annual meeting, Amsterdam, The Netherlands, 8/2/09

"Fronto-subthalamic interactions in high conflict decisions and response inhibition: Computational and empirical studies", Symposium on neurocomputational models of speeded decision making (R Bogacz chair), Mathematical Psychology annual meeting, Amsterdam, The Netherlands, 8/2/09

"Computational neuroscience and empirical studies of reinforcement learning", 1st Annual NIMH-Sponsored Brain Camp, Cold-Spring Harbor, NY, 5/2/09

"The neurogenetics of exploration vs exploitation: Prefrontal and striatal dopaminergic components", workshop on Computational Role of Dopamine, (B Averbeck and M Frank, chairs) Computational and Systems Neuroscience (COSYNE) meeting, Snowbird UT, 3/2/09

"Neurocomputational and Genetic Components to Exploration vs Exploitation", symposium on mesocorticolimbic interactions in health and disease (A Gruber chair), Winter Conference on Brain Research, Copper Mountain Colorado, 1/29/09

"Fronto-subthalamic interactions in high conflict decisions and response inhibition: Computational and empirical studies", Symposium on the subthalamic nucleus (C Baunez chair), Winter Conference on Brain Research, Copper Mountain Colorado, 1/27/09

"Temporal Integration of Expected Utility: Neurocomputational and Genetic Components", Open Problems in Neuroscience of Decision Making, Okinawa, Japan, 10/16/08

"Neurogenocomputomics", symposium on Neuromodulation of Lifespan Cognition, International Congress of Psychology, Berlin, Germany, 7/21/08

"Neurogenocomputomics", symposium on Computational Psychiatry, Lisbon, Portugal, 5/30/08

Interactive dynamics of corticostriatal circuits in behavioral adjustment", Workshop on "Action monitoring and behaviour adjustment", RWTH Aachen University, Aachen Germany, 3/15/08

"Interactive dynamics of corticostriatal circuits in reinforcement learning and decision making", Sustaining Performances Under Stress Symposium, University of Texas at Austin, Austin TX, 12/6/2007.

"Simulating dynamics between frontal cortex and subthalamic nucleus in high-conflict decisions and response inhibition", workshop on Translational Aspects of Stopping Movement and Action, UCSD, San Diego CA, 11/2/2007

"Neurocomputational models of frontostriatal function and dysfunction", Symposium on Computational Models of Biological Psychiatry, Computational Cognitive Neuroscience Conference, San Diego, CA, 11/1/2007

"Dynamics of frontal cortex and subthalamic nucleus in high-conflict decisions and response inhibition", workshop on neural mechanisms of stochastic decision making, Ohio State University, Columbus, OH, 9/11/2007.

"Interactive dynamics of corticostriatal circuits in reinforcement learning and decision making", in K. Gurney (Chair), "*Computational Models of the Basal Ganglia: From Molecules and Membranes to Behaviour and Cognition*". Symposium conducted at the 9th Triennial Meeting of the International Basal Ganglia Society, 9/6/2007

"Dopamine and reward calculation", Charité conference on Emotional Neuroscience, Berlin, Germany, 9/1/2007

"Interactive dynamics of striato-cortical circuits in reinforcement learning and decision making", in C. Holroyd (Chair) "*The Cognitive Neuroscience of Decision Making*". President's Symposium conducted at the Canadian Society for Brain, Behaviour and Cognitive Science, University of Victoria, Victoria, BC, 6/16/2007

"Interactive dynamics of striato-cortical circuits in reinforcement learning and decision making", Perceptual Expertise Network meeting, Yale University, 4/20/07

"The computational roles of dopamine in reinforcement learning and decision making". in J. Cohen (Chair) "*Has Reinforcement Learning Come of Age?*" Symposium conducted at the Psychonomic Society Annual Meeting, Houston TX, 11/17/06

"Evidence for a dynamic computational role of the subthalamic nucleus in decision making", in B. Knutson (Chair) "*Motivation and Emotion: Decision-Making*" Symposium conducted at the Society for Neuroscience Annual Meeting, Atlanta Georgia, 10/15/06.

"Interactive dynamics of striato-cortical circuits in reinforcement learning", workshop on the Role of Medial Frontal Cortex in Cognitive Control and Performance Monitoring, Amsterdam,

the Netherlands, 6/10/2006

"Dynamic Dopamine Modulation of Striato-cortical Circuits in Reinforcement learning and Decision Making", Betty Behrens Symposium on Neural Mechanisms for Regulating Behaviour, University of Cambridge, Cambridge, UK, 8/4/2005.

"When and When Not to Use Your Subthalamic Nucleus: Lessons from a Computational Model of the Basal Ganglia", International workshop on Models of Natural Action Selection, Edinburgh, Scotland, 7/30/2005.

"Computational Perspectives on Schizophrenia: Dysfunctional Dopamine Modulation of Striato-Cortical Circuits", Cold Spring Harbor Laboratory workshop on schizophrenia and related disorders, Cold Spring Harbor, New York, 7/16/2005.

"Computational Models of Striato-Cortical Circuits in Cognition: Recent Advances and Converging Empirical Evidence." workshop on Basal Ganglia, Dopamine and Learning: Integrating Computational and Clinical Perspectives in Jerusalem, Israel, 6/29/2005.

"Modeling Cognitive Deficits in Medicated and Non-medicated Parkinson's Disease." Cognitive Neuroscience of Category Learning conference, New York, NY, 10/10/2004.

"Basal Ganglia and Dopamine in Cognition: Network Models and Behavioral Studies." John Merck Fund Summer Institute for the Biology of Developmental Disabilities, Princeton University, 7/22/2004.

Society for Neuroscience

Society for Neuroeconomics

Editorial

- Reviewing Editor, *eLife*, 2015-Present
- Associate Editor, *Journal of Neuroscience*, 2015- Present
- Associate Editor, *Behavioral Neuroscience*, 2014- Present
- Consulting Editor, *Psychological Review*, 2015-Present
- Contributing Editor, *European Journal of Neuroscience*, 2008 - present
- Contributing Member, Faculty of 1000 (www.f1000.com), Theoretical Neuroscience section, 2008- present

- Consulting Editor, Journal of Mathematical Psychology, Jan 2010 – 2014
- Guest editor (with Nathaniel Daw), special issue of *Cognition*, Reinforcement learning, 2009.
- Guest editor (with Quentin Huys and Tiago Maia), special issue of *Biological Psychiatry*, Computational Psychiatry, 2017
- External action editor, PLoS Biology, 2016; J Experimental Psychology: General, 2013
- Editorial Board, *Connection Science*, 2014-Present
- Editorial Board, *Motivational Science*, 2014-Present

Reviewing (Grants)

NIMH Reviewer Interventions/Biomarkers panel, 2016, 2017
 NIH Reviewer Integrative, Functional and Cognitive Neuroscience panel 2012, 2013
 NSF Review Panel, 2016
 NSF Proposal Reviewer, ad-hoc
 Agence National de la Recherche (French National Agency)
 Biotechnology and Biological Sciences Research Council
 NWO (Netherlands Organisation for Scientific Research)
 Neurological Foundation of New Zealand
 NSERC Discovery Grants (Canada)
 Parkinson's Disease Society of the UK
 Swiss National Science Foundation
 The Wellcome Trust
 UK Economic and Social Research Council

Reviewing (Publications; ad-hoc)

American Journal of Psychiatry, Behavioral and Brain Sciences, Behavioural Brain Research, Behavioural Processes, Biological Psychiatry, Brain, Brain and Cognition, Brain and Language, Brain Research, Cerebral Cortex, Cognition, Cognitive Affective and Behavioral Neuroscience, Cognitive Science Society Annual Meeting, Cambridge Handbook on Computational Cognitive Modeling, Clinical Psychological Science, Current Biology, Depression & Anxiety, European Journal of Neuroscience, Frontiers in Behavioral Neuroscience, Frontiers in Computational Neuroscience, Handbook of Basal Ganglia Structure and Function, Hippocampus, International Journal of Neuropsychopharmacology, International Journal of Psychophysiology, JAMA Psychiatry, Journal of Cognitive Neuroscience, Journal of Computational Neuroscience, Journal of Experimental Psychology: General, Journal of Neurology, Journal of Neurophysiology, Journal of Neuroscience, Learning & Memory, Memory & Cognition, Movement Disorders, Nature, Nature Neuroscience, Neural Computation, Neural Networks, Neurobiology of Aging, NeuroImage, Neuron, Neuropsychologia, Neuroscience & Biobehavioral Reviews, Perception & Psychophysics, Proceedings of the National Academy of Sciences, Psychological Review, Psychological Science, Psychonomic Bulletin & Review, Psychopharmacology, PLoS Biology, PLoS ONE, Science, Topics in Cognitive Science, Trends in Cognitive Sciences

Professional Service

- Director, Initiative for Computation in Brain and Mind at Brown U, 2012-present
- Program Committee, International Convention of Psychological Science, 2013-15
- Program committee, Multidisciplinary Conference on Reinforcement Learning and Decision Making: Princeton 2013, Alberta 2015, Ann Arbor 2017
- Program Committee, Collaborative Research on Computational Neuroscience (CRCNS) conference, Brown University 2017
- Cognitive Neuroscience Society Young Investigator Award Committee, 2015-present
- Co-organized first Computational Psychiatry Conference, Miami FL. 10/22–23, 2013
- Co-organized computational psychiatry workshop satellite to Biological Psychiatry conference, San Diego CA 5/17/17

- Organized symposium on “Computational models of basal ganglia physiology and function”, International Basal Ganglia Society, Eilat Israel, 3/5/2013
- Co-chair in symposium on “Individual Differences in Dopamine Signaling: Role in Learning, Risk Taking, and Impulsivity”, Dopamine 2013, Alghero Italy, 5/24/13
- Co-organized workshop on "The computational role of dopamine", Computational and Systems Neuroscience (Cosyne 2009), Snow Bird Utah, 3/2/2009
- Organized symposium on "Computational models of biological psychiatry" at the Computational Cognitive Neuroscience Conference, San Diego, 11/2/2008
- Provide assistance to researchers using neural modeling software for simulating basal ganglia interactions in learning and associated neurological dysfunction (2005 – present)
- Panel member, Cognitive Neuroscience Treatment Research for Improving Cognition in Schizophrenia (CNTRICS)
- Participated in Deep Brain Stimulation (DBS) Consensus Conference to provide recommendations for patients with medically intractable Parkinson disease to patients and physicians. Advised on cognitive disturbances of medication and DBS. 4/2 – 4/3, 2009, New York, NY.
- Academic Advisor for freshman students, Brown University, 2010-2012

Teaching

Computational Cognitive Neuroscience, 2007/08/09/10/11/12/13/14/15/16

Doing Bayesian Data Analysis 2013

Mechanisms of Motivated Decision making, Spring 2011, 2017

Cognitive Control Functions of the Prefrontal Cortex, Spring 2010

Reinforcement Learning, graduate seminar, Fall 2007

Seminar on Computational Approaches to Cognitive Neuroscience, Fall 2006

Computational Cognitive Functions of the Prefrontal Cortex, graduate seminar, Spring 2006

Guest Lecturer: Systems Neuroscience, Fall 2009

Advanced Cognitive Neuroscience, Spring 2009

Foundations in Cognitive Psychology, Spring 2006, 2007, 2008

Neural Dynamics, Fall 2013

Cognition core graduate course, Fall 2016

Supervision (current)

Nicholas Franklin, graduate student, 2011 – present

Daniel Scott, graduate student, 2016 – present

Harrison Ritz, graduate student, 2016 – present

Matthew Nassar, postdoctoral 2013 – present

Andra Geana, postdoctoral 2016 – present

Andrew Westbrook, postdoctoral 2016 – present

Arif Hamid, postdoctoral 2016 – present

Prannath Moolchand, graduate student, 2012 – present

Daniel Dillon, co-mentor for K99/R00 2012- present

Supervision (completed)

Jim Cavanagh (Ph.D. co-advisor, 1/07 – 8/10, now Asst Prof U New Mexico)

Jim Cavanagh, Postdoctoral 2010 – 2014, now Asst Prof U New Mexico

Anne Collins, Postdoctoral 2010 – 2015, now Asst Prof UC Berkeley

Jeff Cockburn, graduate student 2009 – 2015, now postdoc CalTech

Thomas Wiecki, graduate student, 2010 – 2014, now director of data science at Quantopian Inc

Michael X. Cohen (Postdoctoral supervisor 08-09, now Asst Prof, Univ. Amsterdam)

Ahmed Moustafa (Postdoctoral supervisor 2006-2007, now Asst Prof Univ W Sydney Australia)

Nathan Vierling-Claasen, postdoctoral, 2013 – 2016, now data scientist Wayfair

Bradley Doll (Ph.D. advisor, 5/06-7/11, now data scientist, about.com)
Catherine Hegarty, graduate student rotation 2011-2012 (NIH-Brown Graduate Program)
Minryung Song, neuroscience graduate program lab rotation, Fall 2008
Christina Figueroa, research assistant, lab manager, Fall 2007 – 2011
Sean Masters, research assistant, lab manager, July 2011 - 2013
Rosa Senatore, visiting graduate student, Jan 2011 – Sept 2011

Other Work Experience:

PREDICTION COMPANY

June 2001 - June 2003

Santa Fe, New Mexico
(consultant office in Boulder, CO)

Software Developer and Research Consultant

- Designed and developed neural network software for detecting stock market patterns

UNIDEN SAN DIEGO R&D CENTER

San Diego, CA

October 1997- August 1998

Staff engineer

- Systems Integration and Test Engineer, hardware and software design for cellular phone.

MONTREAL NEUROLOGICAL INSTITUTE

Montreal, Quebec

May 1996 - August 1996

Biomedical engineering research assistant

- Developed software to manipulate magnetic resonance images (MRI) for analysis of epileptic brain anatomy and to map electroencephalogram (EEG) activity on the MR images.

Personal Information:

Born: November 22, 1974 in Montreal, Quebec, Canada
